

Chuo-Yun Yang

678-490-5769 | friedmeow@gatech.edu | friedcosey.com

Education

Georgia Institute of Technology

Atlanta, U.S.

M.S. in Computer Science

Aug 2018 –

National Chiao Tung University

Hsinchu, Taiwan

B.S. in Computer Science (GPA: 4.13/4.3)

Sep 2014 – Jan 2018

Awards Academic Achievement Award (Students within top 5%: 3 Semesters)

Courses Cloud Computing, System Administration, Compiler Design, Computer Networks, Database Systems, Operating Systems, Data Structures, Algorithms

Experience

NCTU Online Curriculum Assistant Project

NCTU, Hsinchu, Taiwan

Jul 2017 – Jul 2018

[A website to help students analyze their learning processes, communicate with their mentors, choose courses, and check graduation status with a user-friendly interface]

Back End Web Developer Intern (Build the website from scratch)

- Deploy the website with Express and Nginx
- Implement the login system with OAuth
- Provide Restful API to retrieve student data
- Track whether a student satisfies graduation requirement

SDN Project

Accton Technology, Hsinchu, Taiwan

Jul 2017 – Aug 2017

[Working on various ONOS applications]

Intern

- Build different network topology with MININET
- Construct vRouter with ONOS and OVS and rewrite ONOS app to control the routing
- Study the Openflow Protocol

Projects

Building an Interactive Map Taking Input From Sensors

Aug 2016 – Jul 2017

[In NCTU, there are various sensors with information about their locations. Having a single output device to display all kinds of information in a user-friendly way is important.]

- Integrate the sensors in the school campus to a single output device by Google Map API using the IOTTALK platform constructed by Prof. Yi-Bing Lin's laboratory
- Analyze the geodata from LoRa-Based dog trackers to track and predict the location of dogs

Create a Private Cloud Storage Service

Sep 2017 – Jan 2018

[A private cloud object storage (Swift) that users can customize how they want their data to be stored by customizing different middleware]

- Set up Openstack with multi-nodes and install Object Storage (Swift)
- Configure the middleware of Swift with Python
- Provide a web interface to customize different middleware and interact with Swift API by Express

Skills

Proficient in C/C++, Express, Node.js, Javascript, SQL, **also familiar in** Python, Java, Assembly, Verilog
